Get Started

Calibrate Evo and download the Evo app.

1. Make sure Evo is powered off, then place Evo on black circle.
2. Press and hold Evo's power button for 2 sec. until top light blinks white. Then, release power button.
3. Evo spins and blinks green when calibrated. If Evo blinks red, start over from Step 1.
4. To collect stars as you complete your Experience Pack, download the Evo by Ozobot app before continuing.
→ Use black marker to complete your path, then place Evo on the START. Evo will randomly select a color. Repeat several times.

Which Way?

Evo reads and responds to color patterns, called Color Codes.

→ Can you tell which Color Codes mean Slow, Fast, and U-Turn?
U-Turn Codes

Finish adding the U-turn codes to make sure Evo won’t get stuck at the end of the lines!

Code Creator

Use markers to practice creating the cool Color Codes below.

TORNADO

Start

Copy the code above to practice!

BACKWALK

Start

Copy the code above to practice!
Some codes mean the same thing no matter which way Evo reads them. Other codes have two meanings.

→ Use the color key to color the codes, then see what Evo does in both directions.

Wrong Way!

You are ready to help Evo find the finish line.

→ Color the correct code in the path so Evo avoids the dead ends!

Code Bank
Choose one

- Go Straight
- Go Left
- Go right
Jump Codes

With Jump Color Codes you can move from line to line.

Choose the correct Jump Color Code to get from START to FINISH in a flash.

Jump Challenge

Use 2 Jump Color Codes to help Evo find the finish line!
Brain Teaser

→ Place Color Codes on the lines to guide Evo to the finish.

Color Code Bank

Use each Code Codes once

Go Left  Go Left  Go Right
